

# E-GENESIS

THE SCHOOL NEWSLETTER

February - March 2021

## The Editorial Team

Ms. Deepshikha Ghai, Giyana Gethani, Dheeraj Sharma, Vedant Khunteta,  
Bushra Khan

# From the Desk Of...

## Honorary Secretary

The virtues of dedication, laudable work ethics, sincerity and respect for the alma mater was unearthed brilliantly during the COVID-19 Pandemic. MPS International strives academic excellence accompanied by opportunities that shape one as a person, their cognitive and emotional development and their creative self. We tread carefully amid the pandemic, appropriating all functions of teaching, meeting & celebration online.

Notably, the school had adjusted to the 'new normal' diligently. With rigorous preparation for the upcoming Grade X & XII BOARD examinations, school teachers have taken the daunting & unfamiliar task to teach virtually everyday with a new set of teaching aids. The school staff & management have co-operated like never before amid such a cumbersome phase. Hope has assuaged, but the will to achieve more persists, flourishes. E-Genesis is one such byproduct of the skilled staff and devout students. I applaud all the tenacious & respected management, staff, teachers & students for their faith, devotion and efforts in retaining MPS International's stature. Wishing everyone a good time ahead!

Nirmal Dargar

Secretary (MPS International)

# From the Desk Of...

## Respected Principal

While the outrageous pandemic seems to have enveloped the modern-day world in a smog of distress, the sea of exploration bears rather calm waters. This, above all, has presented an assailable opportunity to adapt & improvise - what is best found at MPS International.

E-Genesis, the pandemic's progeny, is a role model for unbound creativity & life's flow. The monthly newsletter summons a variegated approach to present our children's creative juices in art, literature, science, traditions & cultures. Students are prolifically encouraged to chart their imagination with no discrimination over sense & an influx of their mentors.

The electronic avatar subsumes 'no-contact' feast to monthly school updates, innovations, editorials, events organized online, art & unaltered creativity in writing & performing. E-Genesis is a spectacle constructed by an erudite editorial team who spare no stone to embellish its radiance, signifying the ideals of authenticity, originality, devotion & collaboration. It is my heart's pleasure to present you with such amenities.  
God bless!

Archana Singh

Principal (MPS International)

# From the Desk Of...

## Respected Vice Principal

### *An Expectant Attitude*

*Attitude is one of the most important ingredients in determining success or lack thereof for all people.*

*Successful people have one thing in common - an expectant attitude of success.*

*Most people begin each morning in neutral and react to events of the day. You can be one of the successful people in life by starting each day with a positive attitude, a gratitude for the opportunities you have, and an expectancy of the best for yourself.*

*People tend to live up to expectations. We get out of life just about what we put into it. Our environment becomes a mirror of our spirit, our attitude, and expectations. If we keep a great attitude, we get great results. If we have a fair attitude, we accomplish fair results, and if we have a poor attitude, we accomplish poor results.*

*The world will give you back what you expect, so expect the very best. Don't be defensive or doubtful. Nothing changes unless you do. Before you can do something, you've got to be something. Know that you have worth and value. Show that to the world.*

*Treat everyone you come in contact with as the most important person of the hour. It will build self-esteem. Smile! You'll be rewarded with a returned smile. Don't react to discourtesy. Forgive everyone who ever hurt you. Then, forgive yourself. Keep yourself healthy. Exercise. Eat a proper diet. Radiate an attitude of confidence.*

*Develop these good habits and your expectancy will be rewarded by successes. This attitude will put you into that group of people who are truly successful, because you will know and understand how an expectant attitude enhances every aspect of your life.*

### *Your Affirmation*

*I constantly have new insights*

*My future is glorious.*

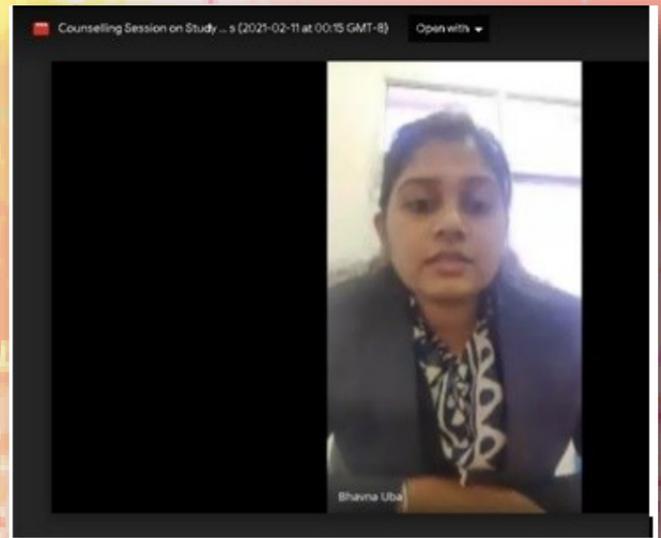

*Manju Sharma*

*Vice Principal (MPS International)*

# The School News

## Counseling Session Conducted by Dr. Bhavna Uba

Dr. Bhavna Uba conducted a session for classes 9<sup>th</sup> and 11<sup>th</sup> regarding the mental pressure and fear of offline classes and examinations on students. She suggested them to manage their time well and limit their learning.

## Basant Panchami

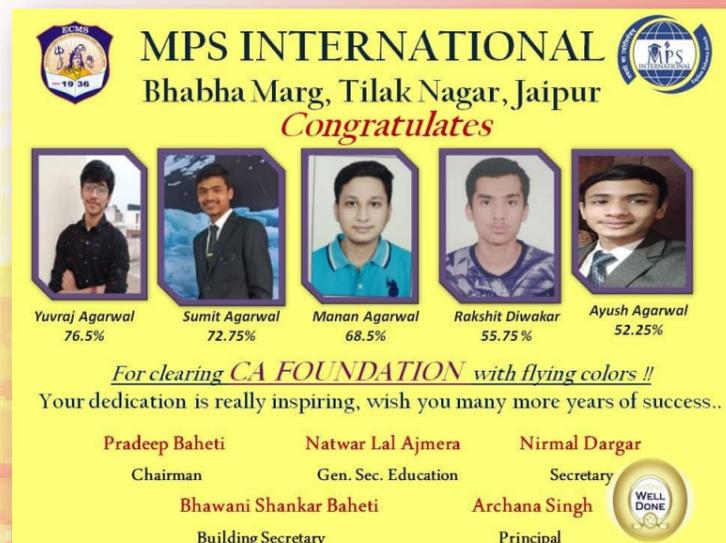

On the occasion of Basant Panchami, the birth anniversary of Maa Sharda was celebrated with enthusiasm. School Secretary Mr. Nirmal Dargar, School Management Secretary Mr. Ajay Malpani, Principal Ms. Archana Singh and Vice-Principal Ms. Manju Sharma were present during the puja. School choir group presented their mellifluous song.

# The School News

## Felicitating CA toppers

Five students were congratulated by the school for their pinnacular achievement in the CA foundation.

## Best Mentor-Mentee award ceremony

Ms. Manorama Mookim was awarded as the best mentor and Ms. Sunita Maheshwari as the best mentee under the mentor-mentee spoken English program initiated by the ECMS. This program was a step towards honing the spoken English skills of the teachers working under the aegis of the ECMS. ECMS Chairman Mr. Pradeep Baheti, General Secretary Mr. Natwar Lal Ajmera, spoken English Convener Mr. Brij Mohan Baheti and Principals of sister concerns were present on the ceremony.

# The School News

## Vishwakarma Jayanti

On the occasion of Vishwakarma Jayanti, Lord Vishwakarma was worshipped as he was the very first engineer of the universe. School Principal Ms. Archana Singh and staff members were the part of the puja where they prayed for the school's welfare and success.

The School Parliament 2020-21

## SELF REFLECTION

Last night I felt a heaviness in my chest  
As the weight of our memories passed  
upon my body  
I asked to gravity to go bother someone else,  
And she said, "if it is Devity that you see  
Unmask your sadness  
And you will find anger  
Unmask your anger  
And you will find your pain  
Unmask your pain  
And you will find joy  
I asked her if it were really so  
simple, and she said, "most people  
forget they were wearing a mask to  
begin with".

## My Love - India

Raise the love of the country,  
celebrate the festival of freedom.  
Wavy tricolor waving in the sky,  
Everyone should be happy together.  
Light a lamp in the heart of every coun-  
tryman,  
In the name of brave martyrs.  
Follow the path of non-violence;  
Embrace the love of country,  
Repeat all together children,  
Tell the people, sing songs,  
My beloved country is great;  
Show children all over the world;  
Wipe out the hats kids;  
Let everyone adopt your children.  
As a family is incomplete without a  
mother,  
The garden is incomplete without forest;  
Morning is incomplete without the sun.  
Well, India is incomplete without the tri-  
color,  
Salute all the martyrs because the  
country lives on their names.

## O Lovely Rain

O! How beautiful is the rain,  
I feel no sorrow, no pain.  
Happiness surrounds everywhere,  
As children dance like small bears.

Flowers are smiling,  
Peacocks are dancing,  
Children making paper boat,  
Oh rain! What happiness  
You brought.

Pitter-patter drops falling on  
the roof,  
O! You are so mesmerizing,  
No need to prove.  
I stand outside whenever  
You come,  
Fresh air soothes me,  
I think that is wind's aim.

Nature cries in form of rain,  
For it also has some pain,  
Pain is being used so wrong,  
By the humans, since very long.

I feel love when it rains,  
Cause' my heart went so  
Deep and left with no pain,  
And for the smile,  
Village farmers gain,  
Then I must say,  
I LOVE YOU RAIN!

Riya Agarwal  
X - G

## The Day a Child Was Born

It was the first day,  
I had opened my eyes for the first time.  
Dreams were decorated with those eyes.

Then one day I came to know that I  
Have to leave my family for my dreams.

After one or two years, I  
Will meet my family again,

Family is a powerful weapon  
That no one can break.

## 7 Tips to Score Well in CBSE Board Exam 2021

The CBSE board examinations are in Month of May and All the Board students are bound to be a bit anxious. Board examinations are considered an important stage for a successful future and students leave no stone unturned while preparing for it. However, the pandemic and resulting online classes have made the upcoming CBSE 2021 board examinations a bit tough as compared to previous years. So, here are some of the effective tips for Scoring high marks.

- 1. Set-Up A Routine** – Setting up a routine is extremely crucial since most of the studying session will be from the comfort of your home. Overcoming the laziness and sticking to a schedule will pay off in the long run.
- 2. Good Workspace** – Again, this is the pandemic special tip since you are studying from home. Studying while lying on the bed could be more comfortable, but it is best to study in a setup similar to the physical classroom. Create a positive environment by putting up motivational quotes that help you stay positive.
- 3. Allocate Time for Revision** – Revising the key concepts and common questions that appear in the last years question papers can help you excel in those areas. Studying it right the first time is vital, but there is certainly no substitute for revision. Refer to sample papers for CBSE board to map out the most common questions.
- 4. Track Your Common Mistakes** – Everyone has their own unique weaknesses. So, it is essential to figure out the mistakes that you make repeatedly and work on eliminating them. Solving 10 Last years solved papers and checking your answers against the solution will allow you to identify and rectify your mistakes.
- 5. Understanding the Questions** – Some questions in subjects like mathematics or Accountancy could be tricky. So, understanding the question before answering them is paramount. We cannot emphasize enough the importance of solving sample papers for CBSE Board. This allows you to get acquainted with the board questions.
- 6. Time Management** – Time management during the examination is vital so that you can complete the paper while giving enough time for questions that are scoring and can help you increase your overall score.
- 7. Understand the Latest Pattern** – The last thing you would want is to go to the examination without understanding the question paper pattern and a strategy to tackle it. It is vital to refer to the Latest Sample papers of CBSE board to devise your own strategy based on the pattern and your strengths as well as weaknesses.

## Switching from OFFLINE to ONLINE class

The non-stop chattering in the morning  
Hush! and Shush! when we walk in the class,  
The stretched, elongated lullaby of "Good Morning Mam"  
Missing the cracking up with folks at last.

There is no blackboard, but computer screen,  
It's online learning that is everywhere seen.  
The pandemic has changed all the teaching rules  
As offline has gone, now trending ONLINE SCHOOLS.

Power-cut and Low Internet Speed emerged in our path  
Fake Id's and Background noise disturbed the class.  
But nothing can last longer in front of our determination,  
And our struggle finally succeed at last.

KRATIKA AGARWAL

TEACHER

## Adjusting to the new normal!

How teachers and students are adjusting to the new normal in India, it's a big question mark as this pandemic has brought around 180-degree change in the academic strategy of each and every school.

After the announcement of the government to open the physical school for the students of senior secondary classes with the consent of parents, actually brought a dramatic change in the lethargic & boring lifestyle of students. The cozy environment of home, zero commuting time, online classes & maximum screen time actually made the students quite lethargic & unfit. As it's well said by William James, "All the daily routine of life, our dressing & undressing, the coming & going from our work or carrying through of its various operations, is utterly without mental reference to pleasure & pain, except under rarely realized conditions." The routine of coming to school, learning together, making fun with friends, eating lunch together & leaving at the end, was completely disturbed which adversely affected the mental & physical health of a student. The optimistic decision to bring to school & education to its routine track, was one of the revolutionary decisions. The news brought smiles for kids, hesitation for parents & extra vigilance for school to take better care of students in this pandemic. Gradually all did their jobs honestly & sincerely to make life again normal. Students have started coming under the shield of mask & with extra care of social distancing. Schools have started calling students on alternative days with social distancing & kept everything like digital thermometer, extra sanitizer, spare masks, primary medical kit to prevent this pandemic. The new normal life for the physical opening of school, is the need of an hour to bring the students back to the same track. Hope, this new retreat to the journey of students' academic world, will shower joy, fitness & good health.

## Possible Career Paths in PHE

Physical education graduates are currently teaching and coaching in public and private elementary, middle, and high schools. Successful completion of other programs in this department prepare graduates to work in sport management, retail sales, fitness facilities, athletic programs, municipal recreation, camp settings, boys and girls clubs, and community programs.

The list below provides several career options, but it is not exhaustive. Please note that some positions require additional education.

- Adaptive Physical Education Specialist
- Adventure/Outdoor Educator
- Aerobics Instructor
- Athletic Coach
- Athletic Director
- Athletic Trainer
- Camp Director
- College Instructor/Professor
- Community Sports Director
- Corporate Wellness Specialist
- Dance Instructor
- Director of Intramural Sports
- Director of Marketing
- Director of Operations
- Early Childhood Motor Skills Instructor
- Education Administrator
- Exercise Physiologist
- Facility/Venue Manager
- Fitness Instructor
- Health/Fitness Consultant
- Health Promotions Director
- Health Researcher
- Human Kinetics Specialist
- Nutritionist
- Occupational Therapist
- Personal Trainer
- Physical Education Teacher
- Physical Health Advocate
- Physical Therapist
- Player Agent/Representative
- Professional Sports Scout
- Public Relations Specialist
- Recreation Center Manager
- Recreation Therapist
- Referee/Umpire
- Rehabilitation Specialist
- Sports Broadcaster
- Sports Journalist
- Sports Information Director
- Sports Marketing Specialist
- Sports Medicine Physician
- Sports Nutritionist/Dietitian
- Sports Psychologist
- Sports Statistician
- Strength & Conditioning Coach
- Tournament Director

## अध्यापक - "कोरोना वॉरियर के रूप में

इस वर्ष मेरा अनुभव एक अध्यापक के साथ-साथ कोरोना वॉरियर के रूप में भी रहा है। जैसा कि हम सभी जानते हैं पूरा विश्व कोरोना जैसी महामारी से जूझ रहा है, ऐसी स्थिति में हमारे चिकित्सक, हमारा पुलिस विभाग कोरोना वॉरियर के रूप में काम कर रहा है, तो एक शिक्षक होने के नाते शिक्षण प्रक्रिया को जारी रखने के लिए शिक्षक कोरोना वॉरियर के रूप में उभर कर सामने आए।

कोरोना के समय शिक्षण प्रक्रिया को जारी रखना एक जटिल समस्या थी, परंतु बच्चों की पढ़ाई का नुकसान भी नहीं किया जा सकता था। ऐसी स्थिति में सभी शिक्षक एकजुट होकर सामने आए। जिन हाथों में कभी कलम और किताबें हुआ करती थी, उन हाथों ने कंप्यूटर और माउस संभाल लिया। शिक्षण प्रक्रिया को तकनीक से जोड़ा और बस फिर क्या था, इसी के साथ ऑनलाइन कक्षा का दौर चल पड़ा। विद्यालयों में खाली कक्षाओं में अध्यापकों द्वारा ऑनलाइन शिक्षण पद्धति द्वारा बच्चों को घर पर ही कक्षाएं उपलब्ध कराई गईं और पूरे वर्ष ऑनलाइन कक्षाओं के द्वारा यह सत्र सफलतापूर्वक पूरा किया गया। यह वर्ष हमारे लिए सीखने की दृष्टि से महत्वपूर्ण रहा इस पूरे वर्ष हमने बहुत कुछ सीखा और यह जाना हर समस्या का समाधान संभव है। जरूरत है, धैर्य और विश्वास की।

" बिना रुके, बिना थके यूँ ही चलते रहेंगे हम ,

आए कितनी भी मुश्किलें अब नहीं रुकेंगे हम "।

GARIMA NARANG

HINDI TEACHER

"The great aim of education is not knowledge, but action..."

.....and school is the only place where we focus on such actions for the bright future of our children.

We always keep the holistic approach of the children in mind. We tried to give the best to children during the online teaching. The teachers taught them through different modes, models and teaching aids and to make the students understand the concept very nicely.

Now as we are trying to come back to school, not only to transition back from the remote learning, but also from a break in learning we think school is the only place where we address the child's mental and physical well-being and academic success. Online teaching can be the mode of learning but it cannot be a long term process. Learning can be possible when students are physically present in school and learn with experiments, play way etc.

According to NEP 2020 and keeping in mind the educational objectives and learning outcomes - we'll also take care of the health and well being of the children by giving them more of experiential learning, experiments and play way learning methodology will also take place.

Keeping the safety of the students in mind continuous monitoring, proper sanitization will be done after and before the school starts, seating plan for the students will be maintained in proper distance. Sharing of food, water, stationery etc. Will be strictly prohibited.

The Physical Classroom is definitely better than online. We want all the parents' teachers and students to join hands together and support our little superstars to come back to their lives full of fun, enthusiasm and zeal of learning.

## The Good Old Days

*I wish there was a way to know you're in the good old days before you're actually left them."*

*I was very grateful to have such good teachers in my life. I really miss my old gold school days. I would like to thank Prathamesh sir for the knowledge he has given me and also I would like to thank Rattan sir for the guidance he has given to me.*

*I miss the camaraderie and fun spirit in my former class. And one of the best memory in the English class was counting students in each row to see which paragraph I'll have to read.*

*I remember clear as day when I was elected as Captain, there was a small part of me that believed that maybe I didn't possess the leadership qualities to be the captain be that as in may now I am a better leader, a better spokesperson and most importantly a better human being all thanks to the opportunity*

*I got at Maheshwari Public School International to be a captain.*

*"Some days I wish I could go back in life. Not to change things, just to feel a few things twice."*

*Kunal Jasnani*

## The Undying Reminiscences of MPS!

*It is usually an arduous task for a small-town introvert boy to move and adjust with the bustle of a city like Jaipur, so was the case with me. The thought to compete with a plethora of talented and hardworking students was enough for me to doubt my capacities, had it not been the solicitous teachers of MPS International I could have never reclaimed my confidence and added to my skills and capabilities, although I spent a short span of 2 years in the institution, it has claimed a profound space in my heart and memories.*

*Everybody who I came across to in this institution was extremely helpful, gracious, and learned. It is primarily because of the ministrations and guidance of my teachers that I could make it to the prestigious Delhi University, a dream that I nurtured for the past 2 years. I am extremely grateful to MPS International that it helped me to live my dream and to find great life mentors.*

*Although the routine, schedule and monotonicity of the School atmosphere sometimes appears to be strenuous, but the teachers would never fail to create an environment that will make you rejoice every minute of your class, every day I spent in the school building reflected the dedication and concern, Principal and Vice Principal ma'am have towards their students. Being in MPS International added great friends and great mentors to my life moreover it gave me great experiences and great life learnings. I would love to let every student of MPS International know that you are in safe and great hands, cherish your belonging there and learn as much as you can, not just the curriculum but the values this institution tries to incorporate in you.*

*Sahil Mathur*

# Alumni's Corner

I have memories. Some are times, some experiences, some humans themselves. To those times I'll not see, those storms & spring showers I bore, those dearest to me, my soul & a Sun I eternally adore -

I still strut through the streets & piazzas the way I did through the green & flourishing main entrance, the corridors which resounded the million many other memories weaved amidst the clamour of lectures and the 'last-seat' gossips. I miss the buzzing classrooms before the teacher would enter, and the silence that followed next after they would come. I was always standing, bossing around for good.

My tiffin box was one item. It was 'Stanley ka dabba'. Except I was not Stanley, so others would 'snatch' my food. All I was left often was with half a sandwich! I'll miss being famished & robbed (of my own food).

Sometimes a 'mehfil' would ensue, almost assuredly, if the teacher was away for a brief with other tasks, or, if the teacher was too docile. I still recall the times spent in those 'free periods' and what opportunity to feast over friends' snacks it would provide us! I miss this.

I was often out of class. Not by the virtue of seldom being mischievous and being punished, but by the opportunities I was endorsed with. My safe place was not away from the public, but holding the mic., on stage, bemusing entire audiences with reckless, amusing words. I would miss being called 'The Englishman'. And there was always Jiyana Jethani - the first of her kind, the better one, and our mentors to save the day! I will miss our monopoly over anchoring - the only discrimination I treasure. The podium was my refuge, the prism which illuminated colours & craft heavenly. One such day I will remember forever was when I was in Grade IX, preparing for my debut anchoring in the Annual Function. How I met my soul sibling Anushka Trivedi. It was ironical how she perceived me as 'bossy & boastful', then days later we turn best of friends. For the times we clicked at every thought, shared the same tastes, inside jokes & unreal giggles on mimicking some people, the birthday parties and our signature 'Goth-grunge' obsession. It's unbelievable how I met such a magnificent soul!

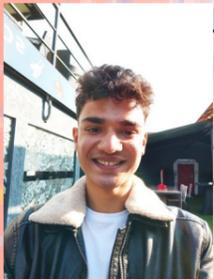

Be it the annual function, the Republic Day, or even teachers' day, I would not miss sneaking tea from the pantry through my heightened conviction. I'm very grateful to the drama and declamation competitions! It gives me a great laugh, thinking about the times my classmates would force me to talk/represent them to Madam Principal whenever she would have an enquiry over the infamous class sections I have been a part of. I will miss the numerous juniors and fellow batch mates, who, by the end of my tenure, understood me and forgave me. The surprising, surreal experience will be missed.

Engaging with Hemant Sharma, my accidental best friend, in curating the School Magazine content, gasping together for air by running up & down four floors to get endless permissions, craft material, a little privacy for Teachers' Day surprise or my endless stroll with him round the second floor, I now grow more fond of those gossips and graceful conversations.

My sitar was a vision from the goddess, and Sir Vinayak Sharma himself. I'll miss people who'd listen to me playing. The art-room on the 4th floor, which I religiously visited, and enjoy the quiet, the after hours after dispersal and the sun that I would bask in.

There came a sun for a stormed, oblivious Ansh. That one exhibition when I was in grade X, and while explaining my project for English, afar a comment whispered in the ears of fellow teachers that stood there, was a comment that is my first & the best memory of an impending revolution; words that drove me mad to pursue. It was Deepshikha Ghai's words to Ms. Monica Satsangi - "He could be a very good professor!" My mentor, my soul mother, Ms. Deepshikha Ghai remains my best memory.

I'd miss the day she told me my result, every time when I would call her from the staff room, right beside the door, first seat she sat. I wouldn't take her name, instead I would 'shush!' and call her. I still laugh, also with some guilt about that! Also, there is a chair in the counselor room. Not a chair but my swing whenever I was there for Psychology classes. Please don't touch that. It's mine.

My deepest reverence to my alma-mater, MPS International and its forces. I am all because what happened here, and who were here, with me, for me.  
God grace!

Ansh Katiyar

# Editorial Team Experiences!

*"Great things are done by a series of small things brought together"*

*- Vincent Van Gogh*

The academic session 2020-2021 has, concededly, been a year of several modulations and inflections. Where, on one hand, the education system was undergoing a transmogrification, with the advent of using technological tools to facilitate e-learning; on the other hand, the cherries on the top were the sweetness of adversities we faced on accord of the wrath of the pandemic. We learnt to bloom even in the tenacious storm the coming generations will ever see. Not only did we battle against all odds of virtual teaching, we also introduced vivacity of teaching learning methodology.

The introduction of e-newsletter was like a gleaming rudiment. To engage with umpteen softwares, graphic designing applications, without the "tech-savvy" support, it was, to my mind, a blessing-in-disguise.

The student editors left no stone unturned to make this dream a success. Where Jiyana worked on designing and conforming the newsletter, Vedant and Bushra lent their invaluable assistance on analyzing the collected information and editing it to the core. Dheeraj assisted in collection of myriad picturesque and ensuring that the presentability is at its best. Without these erudite minds, this venture could not have been brought to life.

I must confess, a monthly newsletter, in the first instance, seemed to be a cumbersome and galumphing task. However, with the perennial support of the MPS International family, which helped in one way or the other, our ship kept sailing. The guidance of teachers coupled with the spectacular work, submitted by our beloved students, made the journey as serene as it can be.

While we are presenting the last edition of the newsletter, for the academic session 2020-2021, it comes with only one singular caveat, which is, that the next session will be even more thoughtful and mesmerizing.

I would be miserably failing in my devoir, if I do not express my sincere gratitude, to our torchbearers Hon. Secretary Sir and Principal Ma'am for reposing their trust in us and guiding us on every step. I would also wish to voice our indebtedness to every educator and the parents of our beloved students for inspiring and encouraging the participation to this venture; and strengthening the bedrock of this foundation.

Here we present e-genesis; the February-March edition 2020-21.

*"The greatest sign of success for a teacher... is to be able to say, 'The children are now working as if I did not exist.'"*

*Maria Montessori*

*Happy Reading!!*

I am part of school editorial team since September 2020. It has given me lots of opportunities to prove myself and I have learnt on every step. It gave me exposure to many new things, faced few difficult times but all of them were easy to tackle with the help of other student editors. Having a strong team is always a plus point and ours is surely one. Ms. Deepshikha Ghai is leading our team with true leadership and she happens to be a great mentor to me, to all of us.

*Bushra Khan  
XI-G*

Being a part of the editorial team was great as it increased our connections with the students, we came to know and learned about many softwares like Publisher, InDesign. As a very good and ample amount of entries came to us, it motivated us and helped us to give our best and showcase their content in the best way. All members contributed different perspectives and the synergy between teammates helped our newsletter to be creative, productive, and informative. So, this being a part of it was very enjoyable, and knowledgeable.

*Vedant Khunteta  
XI - D*

Working in the editorial team for me has been a roller coaster ride which I enjoyed with the amazing company of Ms. Deepshikha Ghai. and my team mates Vedant, Bushra and Dheeraj. We came a long way, from our files being corrupted and computers crashing to successfully releasing a monthly letter for 6 consecutive months during the pandemic. The efforts of all the team members made it possible and successful. I hope we continue working like this for the next session too and make the school proud. Thank you Deepshikha ma'am for giving me this opportunity.

*Jiyana Jethani  
XI - F*
